

• A HEXLY AI PROJECT

hermes on herdr

Your team. Your time.

• THE WEEKEND PROTOCOL

• 01 / THE PEOPLE YOU TRUST

Your brilliant engineering partners.

An idea. The agents you trust. A place to begin.

• Codex

• Grok

• Pi

• Claude Code

• 02 / WHEN ONE BECOMES MANY

More agents. More to manage.

Who is progressing? Who is blocked? What comes next?

• WORKING

• NEEDS INPUT

• DONE

• 03 / A MANAGER FOR THE TEAM

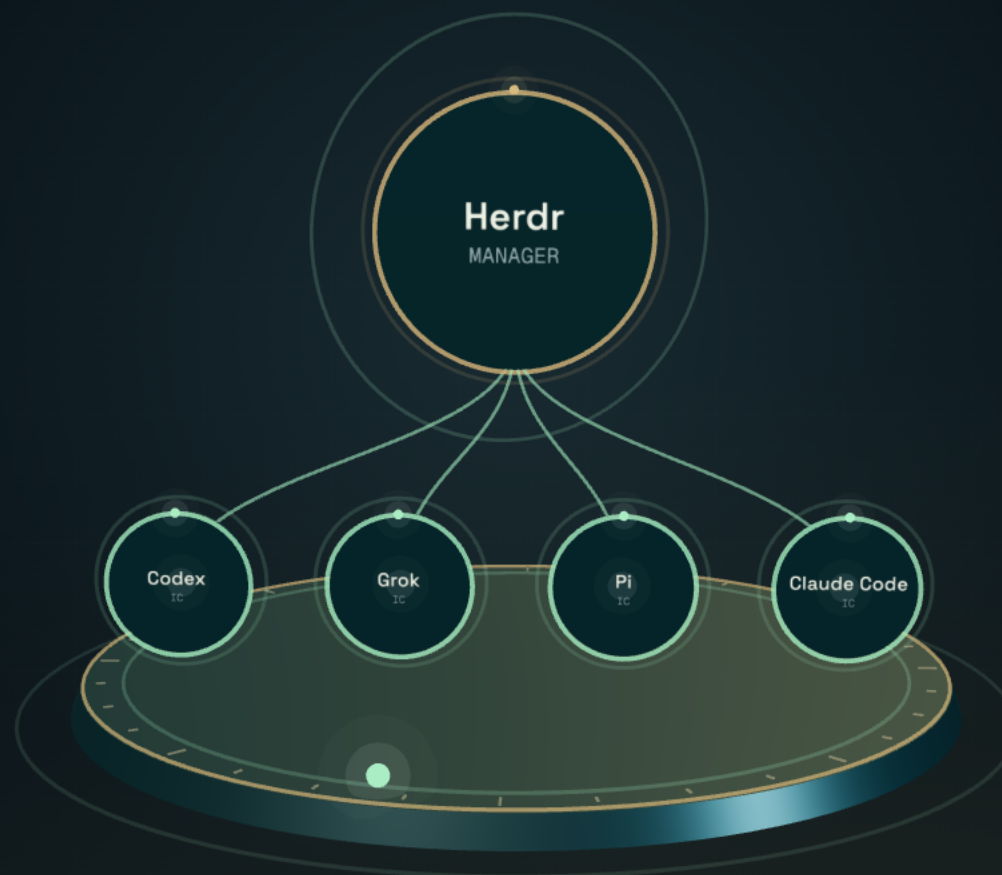

Herdr manages the brilliant ICs.

Workspaces. Terminals. Agent status. Together.

• WORKSPACES

• PANES

• AGENT STATUS

• 04 / FRIDAY, 18:00

It is the weekend. Who manages the manager?

You should not have to watch the terminal all weekend.

• LESS WATCHING

• MORE LIVING

• 05 / MEET YOUR M2

Hermes. Your M2.

A dedicated, trusted profile.
On this machine. Managing Herdr.

• YOU → HERMES → HERDR → ICs

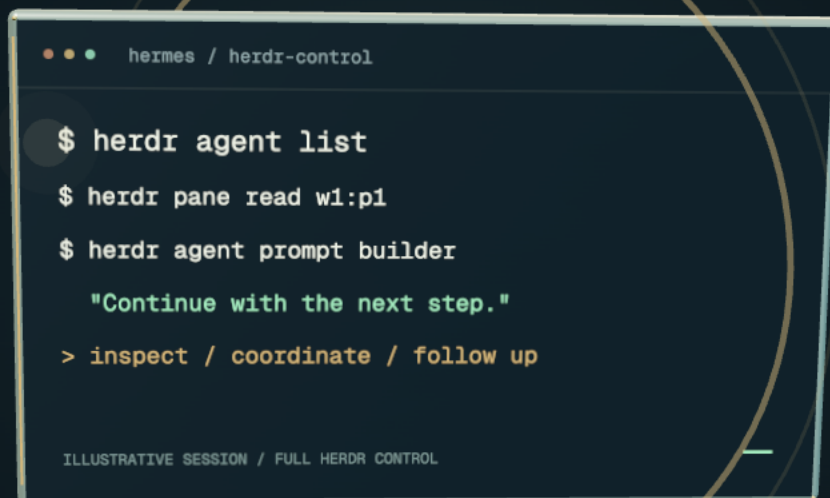

• 06 / TRUST IS A REAL PERMISSION

Full Herdr control. A real handoff.

Inspect status. Coordinate work. Carry your intent.

• TRUSTED PROFILE

• FULL CONTROL

• 07 / ONE SESSION, ONE LIFECYCLE

Start together. Stop together.

Inside a real pane.

A pause stays paused until you resume.

• HERDR SESSION

• HERMES PROFILE

• 08 / STAY IN TOUCH. STEP AWAY.

Stay informed. Step away.

Monitor TUI × Hermes messaging
Keep the machine and Herdr online.

• PROFILES

• CPU / MEMORY

• REMOTE / ASYNC

• THE WEEKEND PROTOCOL / COMPLETE

Manage the genius. Keep your weekend.
